

Belvidere Dental

Cancellation Policy

We at Belvidere Dental want you to receive the care that you need. That's why we block a certain amount of time just for your procedure. These times are set in advance to ensure we can accomplish what is needed for your treatment to get you back to good health.

We ask that you give us at least 24 hours notice if you will not be able to make your appointment.

We understand that emergencies happen and you may not be able to make it to your scheduled appointment. **However, if you have 3 cancellations or failed appointments we will not be able to reschedule your appointment and will have to be place on our call list for same day appointments.**

Please understand that this is not because we do not want you to receive your care, but because we have to think about our other patients as well.

As a result of any missed or failed appointments, there may be a \$75 cancellation fee added to your account if the office hasn't been contacted.

Thank you for your consideration, and we look forward to seeing your smile.
